HOUSE OF ASSEMBLY MANAGEMENT COMMISSION REQUEST FOR PROPOSALS (RFP) CHAUFFEUR SERVICES FOR ELIGIBLE FORMER MEMBERS

Release Date: 14 October, 2026

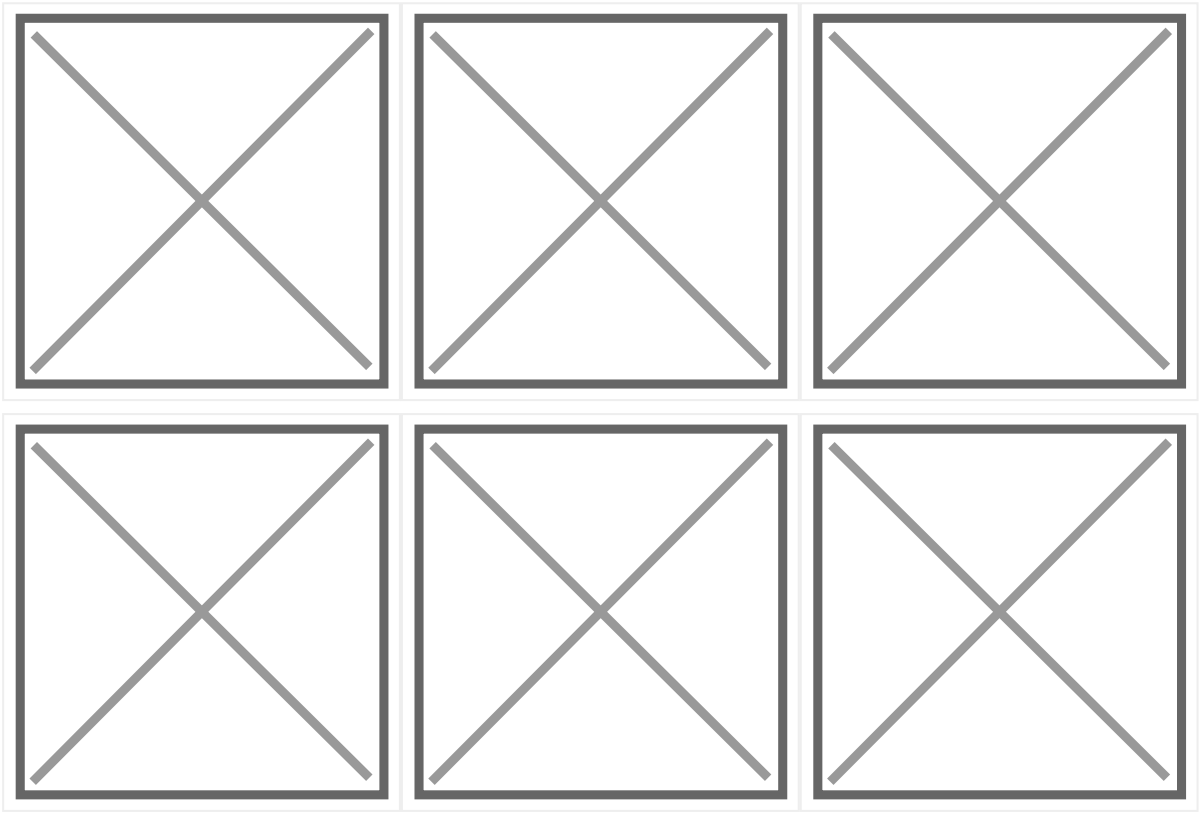

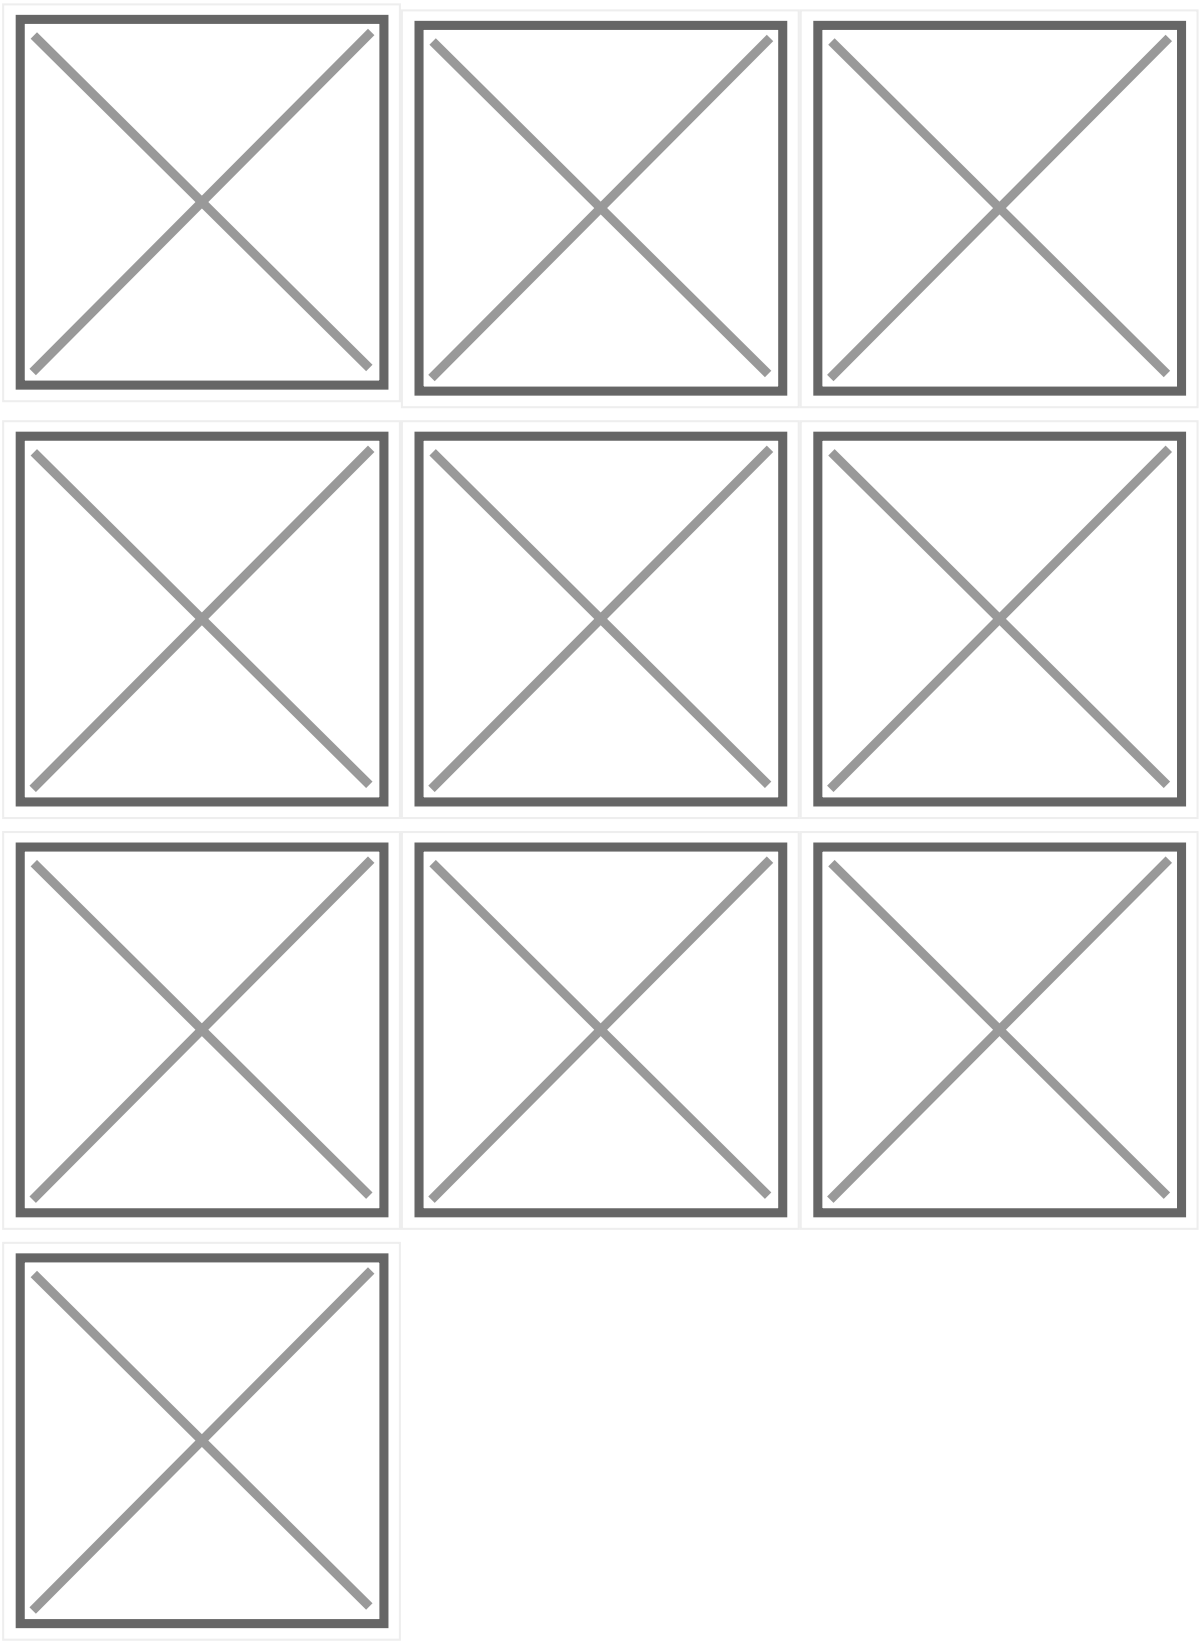

The House of Assembly Management Commission (the “Commission”) is responsible for the administration, staffing, governance support, and financial management of the House of Assembly (“HOA”), and for ensuring that the Legislature is appropriately resourced to discharge its constitutional and democratic functions effectively. The Commission supports the Speaker, Members of the House of Assembly, Committees, and parliamentary administration in the orderly conduct of legislative business and the efficient operation of Parliament.

In carrying out its mandate, the Commission recognises the contribution of Former Members to the parliamentary life of the Territory and seeks to ensure that Eligible Former Members, as approved by the House, are able to attend official, ceremonial, civic and other approved events in safety and with dignity. To this end, the Services are intended to support the Commission in providing chauffeur services to those Members who may need transportation to and from such events, including Sittings of the HOA, official ceremonies, functions, and other destinations approved by the Commission from time to time.

The Commission therefore invites proposals from qualified, professional, and experienced individuals or companies to participate in a procurement process for the provision of chauffeur services for Eligible Former Members for a period of two (2) years.
